

Supported Learning

Information Events for Parents and Students 2017

If you are interested in finding out about Supported Learning courses in the college and are thinking of applying for a place to start college in September 2017 then we would be pleased to see you at one of our parent/guardian information afternoons

We hold events in the afternoon as this will give you the chance to see the college during the day while students are in classes and will give you the opportunity to visit classes and see students at work. The information events are mainly for parents but potential students are also welcome to come along.

At an open afternoon/information event you will;

- Have an introduction to the different courses and support available in the Supported Learning area of the college
- Ask any questions about courses, the college and support
- Look around the Lewisham Way site of the college
- Visit classes and have the chance to talk to students and see different classes in action

Our information events this year are once a month on Friday mornings and start at 11am prompt so we can talk to and show around whoever turns up on the day. The event normally finishes at approximately 12.30pm. Events are planned for parents to make initial visits but prospective students are also welcome to attend though many visit college in groups from school.

Dates for Information Events (all starting at 11am)

- **Friday 14th October 2016**
- **Friday 11th November 2016**
- **Friday 9th December 2016**
- **Friday 13th January 2017**
- **Friday 3rd February 2017**
- **Friday 10th March 2017**
- **Friday 21st April 2017**
- **Friday 12th May 2017**
