

JOIN US FOR A STUDY PROGRAMME

Study with us, and you will get much more than just a qualification.
You will gain skills to prepare you for work or further study.

If you're between 16-19 years old you'll be on a study programme.
Our study programme qualifications are Level 1, 2 and 3.

WHAT IS A STUDY PROGRAMME?

Study programmes are for all full-time students aged 16-19 in schools and colleges across the country. They will make sure that you leave college with the skills to go into work or onto further study.

You will finish your course and gain a qualification and certificate.

What will I do on a study programme at the College?

As well as completing your qualification, you'll have the opportunity to:

- ▶ Enjoy enrichment activities
- ▶ Gain English and maths at the required levels (Grade C and above GCSE)
- ▶ Benefit from tutorial support
- ▶ Develop employability skills
- ▶ Get work experience
- ▶ Get support with job / university applications and interview preparation

HOW CAN A STUDY PROGRAMME HELP ME?

Today's job market is very busy, and you need to shine against the competition. The way to do this is to have the right skills, with the right experience. This is why all of our study programmes have work experience integrated. You can put into practice what you learn in College in the real world.

We want to get you to where you want to be – whether that be further study, employment or even starting up your own business.

We're here to help you though your study programme with tutorial support and enrichment activities, but also for CV writing, job applications, university applications and anything else you may need.

WHY DO I HAVE TO DO ENGLISH AND MATHS?

English and maths is needed in every job. If you want to go up the job ladder, you will be expected to have a good understanding of these subjects. It is very difficult to get into management jobs without these qualifications.

“I'm an online sales assistant and I have to write emails to our customers. I have to make sure it is understood so they know what I mean, and sounds professional”

“As a musician I have to understand a budget, as I have to pay my crew”

If you didn't get a C grade in English and / or maths GCSE at school you can re-take whilst studying your chosen subject at College. It does take extra dedication, but it will be worth it in the long run. We have expert teachers and all the support you need to get you that important grade.

A STUDY PROGRAMME IS MADE UP OF

VOCATIONAL LEARNING	WORK EXPERIENCE
<p>We believe that hands-on learning can boost your ability with your specialism and confidence in your chosen business.</p> <p>So don't expect to sit behind a desk and read through textbooks all day. Learn about a subject you're passionate about.</p>	<p>All our Study Programmes include placement or work experience opportunities, enabling you to put your learning to the test, pick up new skills and supplement your current abilities with real-world experience.</p>
ENGLISH AND MATHS	MAKING YOU WORK READY
<p>A good level of English and Maths will mean that you can progress in your career easily. We will help you reach those important grades.</p>	<p>There's a wide range of enrichment activities and support at the College. These will all help you get ready to apply for your dream job and stand out from the crowd.</p>

WHAT'S IT LIKE TO LEARN AT LEWISHAM SOUTHWARK COLLEGE?

Here's what you can expect to benefit from, as a student with us:

A fantastic environment

Classrooms and dynamic work spaces enable you to go deeper into your studies, bouncing ideas off classmates and testing knowledge with practical demonstrations.

Convenient London location

As well as this, you'll never be far away from the hustle and bustle of London. As we're based at three sites (Deptford Bridge, Lewisham Way and Southwark (Waterloo)), you'll have plenty going on around you – both inside and outside of campus.

State of the art resources

We're home to professional-standard kitchens and a high-class restaurant and bar, a dedicated 90-seater theatre; specialist IT rooms and Mac rooms; fully-equipped laboratories; a mock-up aircraft cabin; dedicated fashion studios, on-site construction workshops and much more. Our general facilities range from a gym at Deptford Bridge to Learning Support and Resource Centres at each campus, free information advice and guidance – the list continues.
